

# MAG theory?

## MAG MANIFESTO!

### 1. Proposal of a single universal MAG model

Everything in the world is basically structured like a seed: the atom, the living cell, the plant seed, the Earth, the Sun, the eye... all structured like this:

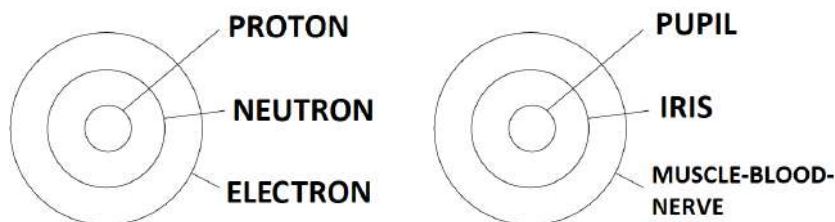

It is a trinary spheric concentric construction. The seed. The universal law.

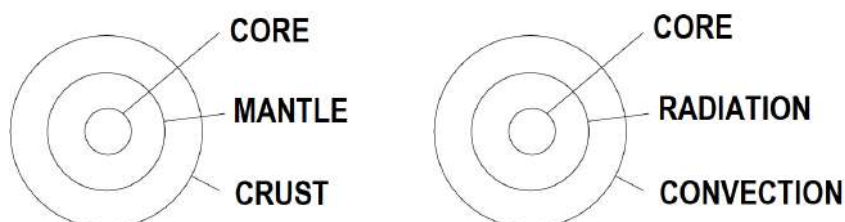

The ancient Magyar language carries the original structure and codes of the seed, even its name signals its role. MAG means seed. Magyar refers to keeping, operating and mastering the universal law.

the MAG is the model and program of all life on all scales, all things natural, human, cosmic, physical and metaphysical. This is the sign uniting the entire living, analogous universe. The SEED is God Him/Her/Itself.

The SEED structure demonstrates the original sequence of creation, becoming, manifestation: it follows an emanation from the inside outwards, in three steps.

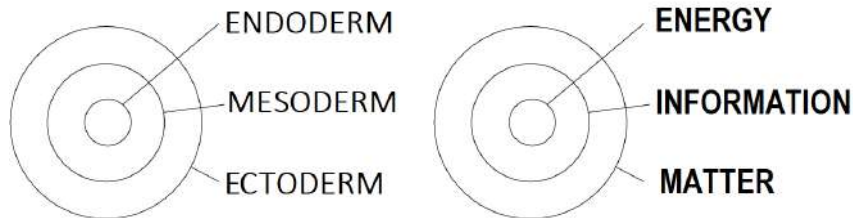

The ATOM and the EYE

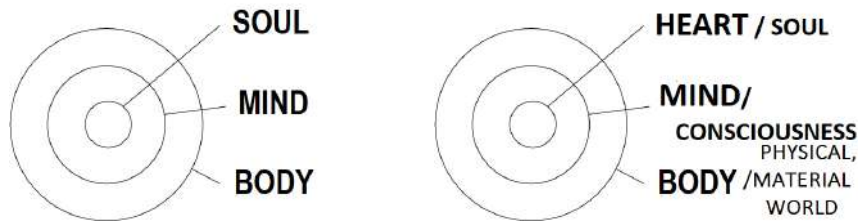

## The EARTH and the SUN

So there is the **horizontal and vertical analogy** and **total unity** of the universe through the common and all-connecting MAG structure. Quantum. And there is the inner trick of the SEED: that itself is a core, and its core is also called core. Hologram.

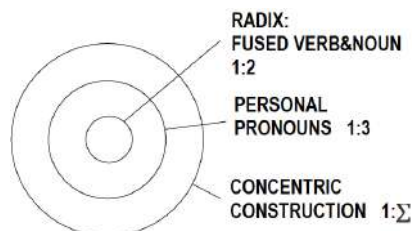

## The BODY and the PHYSICAL WORLD

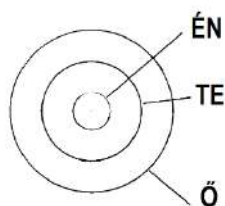

## The WHOLE of ALL SENTIENT BEINGS

Logically, languages should also be structured upon the SEED **pattern**. And they were, a long time ago. In one of the surviving ancient indigenous languages, we can find the evidence: Magyar or Hungarian is our proto-SEED-language. Indeed, in its etymology, *MAG* is the Magyar word for *SEED, core, essence*. And in the logical structure of the Magyar language, the MAG pattern is not only intact, but has extra information: a **code**.

MAG model of the MAGyar language, with the code of creation.

agglutinative, coordinative!

MAG model of the personal pronouns of MAGyar, *én-te-ő* as *I – you – he/she/it*, with NO GENDER!

Kurd, Turkish, Armenian: NO GENDER.

All languages shared this gender-free, literally entheogen, flawlessly flowing circular pattern once. **All original indigenous languages are gender-free!** This is our original organic program of a holistic personal circuit: a balanced self, harmonious relations, cooperative and just communities, societies, natural-human-cosmic high civilizations with universally compatible systems. **The MAG language family, includes all ancient, indigenous languages:** Dravidian, Sumerian, original Egyptian, Greek, American Indian, Australian Aboriginal etc. these languages and cultures are by now almost completely extinct, extinguished by the schismatic cultures that came afterwards.

## 2. Demonstration of how and when the universal MAG model was broken by mankind

At a certain point in history, the pattern broke, the law was broken, the broken law was set in stone some 4000 years ago, and the world went wrong.

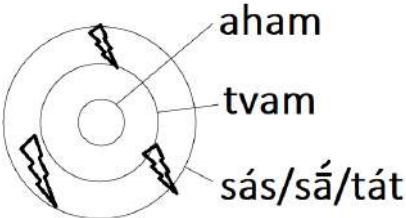

These are the gender-broken pronouns of the Abrahamic, Semitic language family: Hebrew and Arabic.

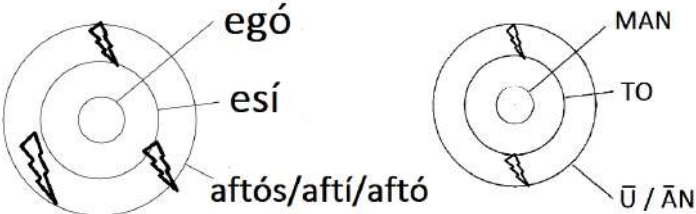

The model is literally anti-SEMitic, breaking the linguistic MAG, SEM or SEED in two strata. **The complex and agglutinative core radices are mostly lost, and the original concentric, coordinative personal pronominal program becomes linear (either/or) and subordinative (*he over she*).** This is the basic mentality program of our entire paradigm. The reductive, broken program and its psychological frustration, trauma and mental captivity results in devolutionary tendencies, corrupted, inorganic and unjust familial, social, racial, political phenomena,

broken systems of government and self-government. Linguistic gender breaks the holism and analogy of God, of the world and of ourselves.

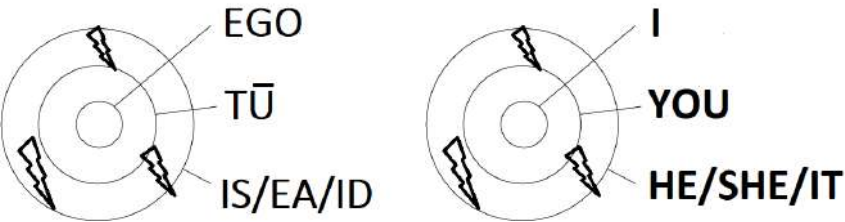

And then another break happened, that too was codified, and the world went even more wrong.

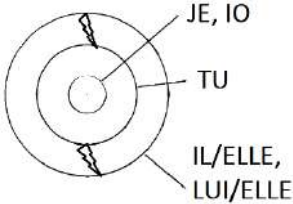

Sanskrit: three genders in the 3<sup>rd</sup> person (c.1700 BC)

Modified ancient Greek (c.800 BC), and Indo-European Persian: two genders in the 3<sup>rd</sup> person (from c.600 BC)

Latin (c.300 BC), and English, as all other Germanic, Slavic and some Romance languages (such as Spanish; from the times of the Roman colonisation)

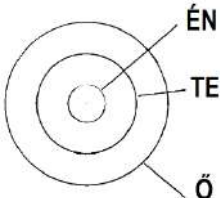

French and Italian, with two genders

While MAG structure allows agglutinative, coordinative structuring and relating, MAG-broken structure is reductive, either-or, subordinative. while MAG languages allow spheric, cyclical, holistic thinking, MAG-broken logic and world view is flat, linear and partial.

This is the Indo-European broken linguistic pattern of pronouns. This program further defines our history and paradigm, with further linearization and subordination, further deformed modes of seeing and being, further broken systems. More division and subordination, more pain, guilt, deception, injustice, parasitism, destruction and self-destruction, appearing as results of the virus in the system. (See the *MAGO* series, beginning with the Renaissance true murder mystery *King Priest Girl Beast* illustrating the spectacular difference between the MAGic and the MAG-breaking psychological, behavioural and political programs, with evidence by Leonardo and Botticelli.)

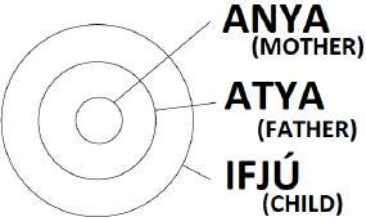

The broken linguistic pattern is a big problem. It is THE problem, source of all paradigmatic problems we cannot handle. We are in a civilizational run amok. The collective autopilot human program error must be recognised and fixed, to heal the caused individual, collective and global ills. The key, the original program is in the SEED. **System-correction is necessary, and the key is the SEED, the MAG.**

**3.Suggestion of reconstructing the universal MAG model, thus reinstating the original natural and divine law and order on Earth – with highest urgency and warning!**

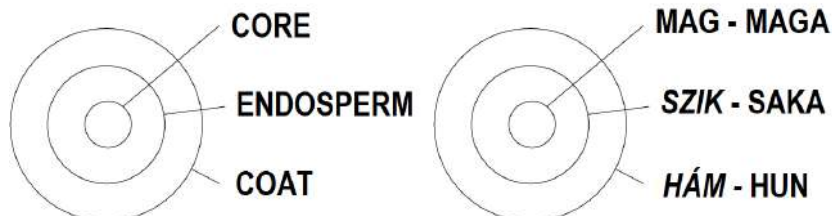

the Magyar pronouns *én-te-ő* (I-you-he/she/she/it) are the single most ancient and most exact sequence of pronouns, reflecting the MAG qualities, structure and process precisely.

**Reconstruct** our original, literally entheogen, **ÉN-TE-Ő**-gene mental coding, by omitting linguistic gender-separation! No more he-she-it division and subordination! Reconstruct the radix system and agglutination, reconstruct linguistic and social and inner coordination and cooperation.

Reconstruct **Holy Trinity of life** *Mother-Father-Child* as the original divine creative sequence and single most stable unit.

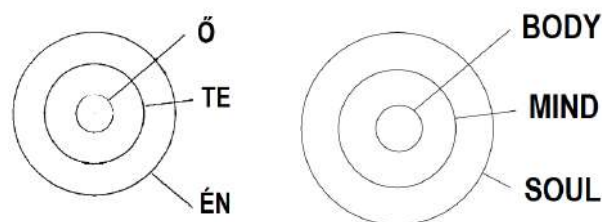

Reconstruct the original holistic, organic religious systems! Post-patriarchal, post-colonial, post-war, post-ravage human life, based on the common organic, universal and eternal model of the MAG.

Our global racial unity can also be reconstructed from the Magyar parts of the plant SEED, *mag-szik-hám* as *core-endosperm-coat*.

Reconstruct **global racial unity and order**, *Magyar-Scythian-Hun* as the original brother-sisterhood of all races: Magyar/Nagar/Mede/Maya, Scythian and Hun is the natural, organic and traditional sacral circle of qualities, tasks, tastes embodied in the single human morphic field: the human MAG. The collective human SEED is the model of our unified humanity, the key to our original peace and cooperation in a higher, collective consciousness.

Reconstruct our original natural alliances within and between the biosphere, humanity and the cosmos. And just let natural, organic, MAGic balances, harmonies and orders of life return. The flawless flow of the MAG cycle allows **reversibility** and the smooth operation of the MAGic atomic reactor that is the MAG.

By the end of the initiation, when our eyes are opened by and to the MAG, there is a turn of perspective and value. We may realise that things are really quite contrary to what they seem. The higher, mystical I contains all persons, as the soul contains the world of the mind, and only within that the body.

**End unjust, unlawful systems! Reconstruct!**

Reconstruct **truth** based on the truth of the MAG (such as is condensed in this manifesto, and shown and explained further in my MAG works) and the MAGic

tradition (such as is sketched and elaborated in the work MAGO). **Urgently reconstruct historical truth – and the most current and present situation!** Reconstruct, meaning **stop lies and stop believing lies!** Let the truth shine forth.

**Reconstruct the very primal law: the right to live and let live. Live according to the great law, and do not take the life or the health of any other creature, be it another person or the Planet. Stop war and poison!**

The MAG is all we need. Remember and see. MAG is in all ancient symbology, even in our words such as magnetism, magnificence, magic, medicine, mediation, meditation, mandala... The MAG is our **deepest vital imprint**. The key to love, truth, health, peace. To live, to survive, to be reborn, to change our unsustainable paradigm, we must **realise, revise, return to, and radically reconstitute** the MAGic model: **our common universal law and order** in our languages and systems.

We are nearing end of the broken-seeded paradigm, and the nearing beginning of a new rebirth into original and organic human holism and all-connectedness. The key to this is the seed model and program. The MAG is the key.
